

1. In der AndroidManifest.xml folgenden code einfügen

[download](#)

```
<application
    android:allowBackup="true"
    android:icon="@mipmap/appicon"
    android:roundIcon="@mipmap/appicon_round"
    android:supportsRtl="true">
    <meta-data
        android:name="com.google.android.gms.ads.APPLICATION_ID"
        android:value="ca-app-pub-9661522762240356~5397188219"/>
</application>
```

2. asdf
